Come and explore...

**IN THE MAGICAL PARK  
OF THE CASENTINESI  
FORESTS**

**THE TREKKING REFUGE OF  
CASANOVA AWAITS YOU...  
YOUR IDEAL HOLIDAY  
PLACE**

## COME AND ENJOY A FANTASTIC WEEKEND:

*The forest and medicine: stories of monks, friars, fairies and elves.*

Embark on a journey into the beech forest to discover the mysterious life of several striking personalities and the stories which have made them famous. We will explore medicinal plants and the fruits of the forest. We will experience meditation which is favoured by the lights and shadows produced by the sun's rays or by the moonlight coming through the branches of century old trees. We will discover the life of ancient monks who learned during the Middle-Ages to heal others and themselves with medicinal plants and will learn where their wisdom came from.

*From trail to trail... In pursuit of the paths.*

Animals, plants and the weather leave numerous clues about their presence and passage: footprints, droppings, seeds, leaves, the remains of meals, feathers, bones, dry branches, fallen trees... The aim of this outdoor experience is to indulge our innate sense of exploration, by providing the tourist with tools and methods to explore and learn about the mechanisms and natural elements which surround us, guided only by instinct, knowledge and all the senses.
